

# Supporting customers for over 80 years

Incinco manufacture incinerators and complete waste management systems. We install and commission the equipment throughout the world, often in some of the most inhospitable places and war zones, providing our international customers with unrivalled waste management solutions and service.

Manufactured to comply with worldwide environmental standards, Incinco has over 80 years experience of supporting our incinerators, sending our technicians around the world for servicing or repair of units, using parts from our extensive stores. You can rest assured that an Incinco incinerator will stand the test of time...

Our clients include: BP, Shell, Gazprom, Barrick Gold and the British MOD. For more information on our wide range of incinerator units and other projects please contact:
